## Declaration of state lands west of Ramallah, Deir Qadish, Deir Ammar Shabtin

2024-07-16

خرائط الأمر العسكري

The occupying state seized 441 dunums of citizens' lands in the villages of Shabtin, Deir Ammar, and Deir Qadis, west of the city of Ramallah.

The process of seizure under the name of state lands aims to tighten control over all the lands surrounding the Nili and Naali colonies established on citizens' lands.

The targeted area constitutes a group of plots that surround the aforementioned colonies, and it completes what the occupying state confiscated in the past years.

The frenzied attack these days led by the occupying state to seize Palestinian land reveals real intentions that have become clear to the entire world regarding tampering with Palestinian geography and dismembering it in

order to eliminate the possibility of communication between Palestinian villages and cities and eliminate the possibility of establishing a Palestinian state.
